NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

For the quarter ended September 30, 2021

1 THE COMPANY AND ITS OPERATION

Dewan Farooque Motors Limited was incorporated in Pakistan on December 28, 1998 as a public limited company. The shares of the company are quoted on all the Pakistan stock exchanges in Pakistan. The principal activity of the Company is the assembly, progressive manufacturing and sale of vehicles in Pakistan.

The Company commenced commercial production through the interim facility from January 01, 2000. The main facility came into commercial operation from January 01, 2001.

On 01 August 2016, the company entered into an agreement with Daehan-Dewan Motor Company (Pvt.) Limited (a related party) for assembly of vehicles on contract basis. The Company manufactured vehicles under this arrangement from March 2018 to June 2018 after that Plant reclose till to date.

2 GOING CONCERN ASSUMPTION

The company has incurred a loss after taxation of Rs. 63.813 million during the period ended September 30, 2021. As of that date it has accumulated losses of Rs.4.286 billion and its current liabilities exceeded its current asset by Rs. 4.653 billion. Furthermore, cumulatively the company has not provided markup on its borrowings from banks and financial institutions amounting to Rs.6.696 billion. The working capital constraints resulted in closure of production activities leading to gross loss situation. The Company has suspended its production from November 2010 till August 2013 and again closed the production since March 2014. Further, the company has been unable to ensure timely repayments of debts owing to financial institutions due to liquidity problems and the short term facilities have not been renewed by banks/financial institutions.Following course most of the lenders have gone into litigation for repayment of liabilities through attachment and sale of Company's hypothecated / mortgaged properties and certain lenders have also filed winding up petitions. These conditions indicate the existence of material uncertainty, which may cast significant doubt about Company's ability to continue as going concern.

These financial statements have been prepared on going concern assumption because the above conditions are temporary and would reverse. The management is confident that the outcome will be positive as the company is negotiating reprofiling of the debt with all the lenders and is expected to be finalized in due course.

10 CONTINGENCIES AND COMMITMENTS

Contingencies

There is no material change in the contingencies and commitments since the last audited financial statements as at June 30, 2021 as disclosed the banks/Financial institutions have filed suits aggregate amounting to Rs. 6.884 billion .

11 FINANCE COST

During the period ended September 30, 2021 the Company has not provided the markup on Long term and short term borrowing from banks and financial institutions to the extent of Rs. 100.989 million. The management is hopeful that the decision of the court will be in favor of the Company and the restructuring proposal will be accepted by the lenders. However had the Company provided this amount in the financial statements during the year the loss of the Company would have been increased by Rs. 6.696 billion and consequently the Share holders equity would have been lower and accrued markup would have been higher by Rs.6.696 billion. The said non provisioning is the contravention with the requirements of IAS 23 "Borrowing Costs".
